

THE CTS HEIGHT ADJUSTABLE BA[®]

The CTS HABA is an economical yet striking unit with the functionality of larger interactive products in a more compact footprint. The design of the HABA kiosk allows space for custom branding and integration with multiple peripherals. The tablet cradle offers up to 45-degrees of tilt motion and 9" of vertical range. For added security, the HABA can be firmly bolted to a number of surfaces to ensure the tablet remains secure and charged.

If space is limited, check out others in the CTS Tablet Series, including the Mighty Free Stand, Mighty Table Top and desktop PC based BA+
